

The VUB AD domain

The VUB AD domain.

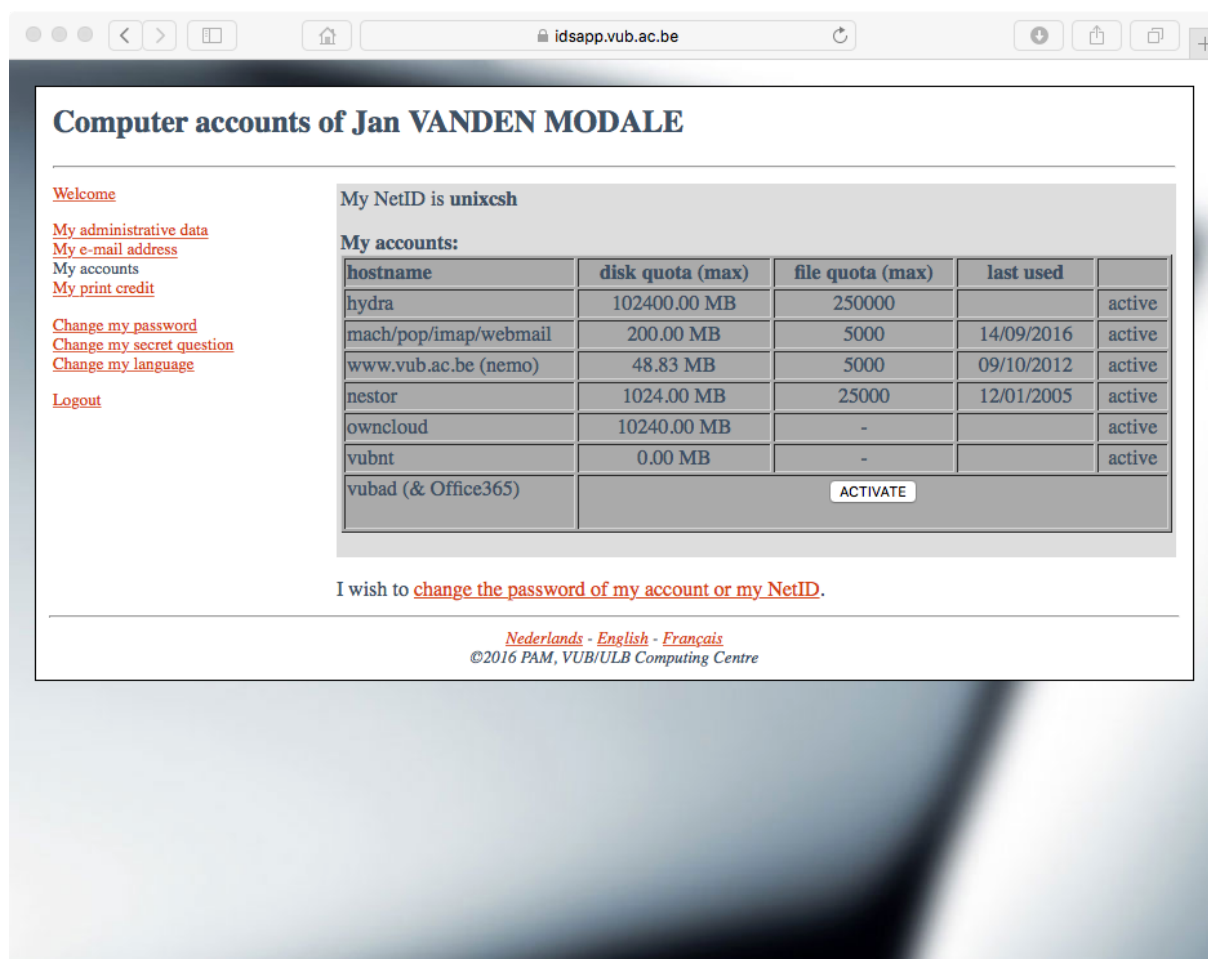

The VUB AD domain is used to provide VUB staff and students access to Office 365.

Creation of a VUB AD account.

All valid VUB staff members and students can activate their VUB AD account by logging in into PAM (Personal Account Manager).

<https://www.vub.ac.be/tools/pam>

Depending of the case, the VUB AD account should be activated manually. In some cases it is automatic.

The screenshot shows a web browser window with the URL idsapp.vub.ac.be. The page title is "Computer accounts of Jan VANDEN MODALE". On the left, there is a navigation menu with links: Welcome, My administrative data, My e-mail address, My accounts, My print credit, Change my password, Change my secret question, Change my language, and Logout. The main content area displays "My NetID is unixesh" and "My accounts:" followed by a table of computer accounts. The table has columns for hostname, disk quota (max), file quota (max), last used, and a status column. The 'vubad (& Office365)' account is highlighted with an "ACTIVATE" button. Below the table, there is a link to "change the password of my account or my NetID". At the bottom, there is a footer with language options and copyright information: "©2016 PAM, VUB/ULB Computing Centre".

hostname	disk quota (max)	file quota (max)	last used	
hydra	102400.00 MB	250000		active
mach/pop/imap/webmail	200.00 MB	5000	14/09/2016	active
www.vub.ac.be (nemo)	48.83 MB	5000	09/10/2012	active
nestor	1024.00 MB	25000	12/01/2005	active
owncloud	10240.00 MB	-		active
vubnt	0.00 MB	-		active
vubad (& Office365)				ACTIVATE

Afterwards it is necessary you change the password of your NetID. You can do this by clicking on the left "Change my password".

Change password of Jan VANDEN MODALE

[Welcome](#)

[My administrative data](#)
[My e-mail address](#)
[My accounts](#)
[My print credit](#)

[Change my password](#)
[Change my secret question](#)
[Change my language](#)

[Logout](#)

Please propose a password for the NetID **unixesh**:
(leave the password fields empty if you only wish to copy your current password to the selected hosts)

Enter new password

Confirm new password

for NetID (*)
 hydra
 www.vub.ac.be (nemo)

(*) Changing the password of the NetID will also change the password on mach/pop/imap/webmail, nestor, owncloud and vubnt.

I wish to [change my secret question and answer](#).

The new password needs to follow these rules:

- At least 7 characters (and maximum 8 characters)
- Maximum 8 characters (and at least 7 characters)
- At least one uppercase (capital) letter A-Z
